PRATT & LAMBERT'S

PERFECTO FLOOR FINISH.

A VERY SUPERIOR VARNISH FOR FLOORS.

WE have combined in this Varnish all the essential features necessary to make a satisfactory Floor Finish. It dries quickly, and is exceedingly tough, so it will not scratch or mar. To convince you of its superiority over other makes, give one end of a small piece of wood two coats of any floor finish made, on the other end give it two coats of this, put the piece of wood after it is dry in water and leave it there a week; the result will satisfy you which you will want to use.

Chicago Office, 370 to 378 26th St. NEW YORK and CHICAGO.

W. H. ANDREWS, RESIDENT MANAGER.

The Apollo

iron is flat and soft enough to bear the usual bending. Not sometimes; not generally; it is so nearly all alike that we warrant it all alike.

To warrant it so does not make it so. If a sheet buckles or breaks we can take it back and send you another that don't; or any number of sheets. This is what we mean by guaranteeing Apollo Galvanized Iron.

Apollo Best Bloom is the trade-mark.

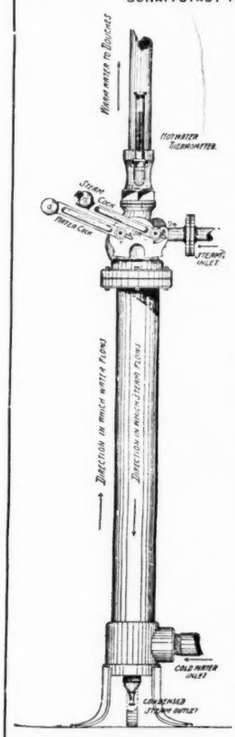
"GEGENSTROM"
Rain Bath Apparatus

SCHAFFSTADT PATENT.



FRONT VIEW.

FOR INSTANT PRODUCTION OF WARM AND HOT WATER BY MEANS OF STEAM.

For Insane Asylums.

For Reformatories.

For Prisons.

For Gymnasiums.

For Bath Establishments.

This apparatus can be furnished to supply from one to twenty douches. It instantly heats water or other fluids to any desired degree of temperature, without directly introducing steam into the fluid, and is, therefore, especially adapted for bath establishments using salt, mineral and other medicinal waters.

It needs no hot-water reservoir or boiler, and is directly connected to water and steam pipes.

The great danger of scalding the bather is avoided by its use, as the highest degree of temperature—supplied by the apparatus designed for bathing purposes—cannot exceed 110 degrees.
